## Education

---

Rajpura, Punjab	<b>Chitkara University</b> BE CSE 9..20
Nangal, Punjab	<b>Capt.Amol.Kalia.Fert.Model.Sen.Sec School (High school)</b> 12th 70%
Nangal, Punjab	<b>Capt.Amol.Kalia.Fert.Model.Sen.Sec School (High school)</b> 10th 78

## Professional Experience

---

2024/06	<b>Developer</b>
Mohali, India	<i>Jay Enterprises</i>

## Skills

---

Java • DSA • C++ • SQL • React • Dart • Flutter

## Projects

---

### Truck Horn

Developed a truck horn tone-changing application using Dart for the frontend and Firebase for the backend. Implemented intuitive user interfaces to allow users to easily customize and change the horn tones. Ensured seamless integration and performance across platforms, enhancing user experience and functionality.

### Shopping Website

Within this project, I've seamlessly integrated HTML, CSS, and JavaScript to deliver an enhanced user experience. The focal point of this development effort lies in the seamless inclusion of payment processing capabilities and a feature-rich shopping cart functionality.

### Matrimonial Website

I have implemented a robust system using React and Node.js that includes advanced functionality for sorting based on gender, allowing users to initiate meeting requests or gracefully cancel those requests as needed.

### MiniMods

Collaborating as part of a dynamic team, we harnessed the power of React, MongoDB, and Node.js to create a compelling web application. This platform places a strong emphasis on user security, requiring login credentials for access, and reinforcing account authenticity through email confirmation.

## Certifications

---

Certified in OOPS in Java by Coding Ninja

Advance Web Development By Coding Ninja
